提升您对
未来技术的认知

可持续发展

“n+i”硕士研修班 **10**天,
法国巴黎

2024年2月5日至15日

“n+i”可持续发展硕士研修班

暂定方案

目标

为学生们提供一个独特的机会，让他们可以探索法国，并在科技应用于可持续发展领域获得可以改变人生经历。

文化活动

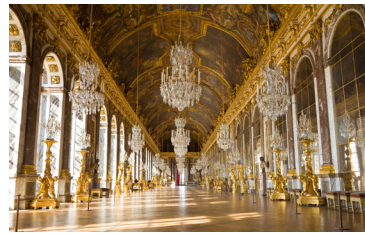

巴黎中国年
塞纳河游船
蒙马特(画家区)
香榭丽舍大街
参观凡尔赛宫

“n+i”工程师学校联盟

“n+i”工程师学校联盟是一个非盈利性协会，是法国一些优秀工程师学校的联合体。

这些学校选择将他们的国际合作活动整合起来，为学生提供一系列的服务，以帮助他们实现在海外的学习计划。

计划概览

增进您对未来技术的了解及对保护环境的认知

讲座及参观活动:

水处理的环境管理实践
空气质量监测
城市供热系统
生活垃圾资源化利用
巴黎公共照明管理
城市交通与水路物流
凡尔赛宫：喷泉表演的幕后
土木工程中的材料回收利用
废物处理方法

与官员会面:

中国驻法国大使馆
法国高等教育部
生态部
巴黎市政厅

学术活动:

创新和可持续工业流程的发展
近几个世纪的工业发展

400 培训项目

40 高等工程师学校

Excursions in Paris
Full board 10 days
Accommodation: hotels, 2 students per room
Local transportation (airport transfers included)
Insurances and SIM card

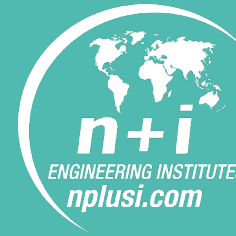

Program Cost

The cost of the program is EUR 2 000

All of the above is included. However, program costs do not include visa and travel expenses to and from France.

Program dates: February 5th to 15th 2024

Application subject to availability
Please note that all prices are valid for 2024
Program is subjected to change according to availability of visits

Enhance your knowledge in future technologies

Sustainable development

"n+i" masterclass **10** days in Paris, France
February 5 - 15, 2024

"n+i" masterclass Sustainable development

provisional program

Objective

To offer students a unique opportunity to discover France and to get a life-changing experience in science and technology applied to sustainable development.

Cultural activities

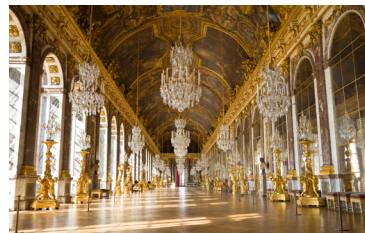

Chinese New Year in Paris
Cruise on river Seine
Montmartre (painting district)
Champs Elysées
Visit of Versailles Palace

Network n+i

The Network "n+i", a non for profit association, is a consortium of French top engineering institutions (Grandes Ecoles d'Ingénieurs).

These schools have elected to combine their international cooperation operations in order to offer a range of services to help students in their study abroad projects.

Program Overview

Enhance your knowledge of future technologies to preserve the environment

Conferences & visits:

- Environmental management practices for water treatment
- Air quality monitoring
- Urban district heating
- Energy recovery from domestic waste
- Public lighting management in Paris
- Urban transportation, waterway logistics
- Versailles Palace: behind fountains show
- Recycle material in civil engineering
- Waste treatment

Meeting with Officials:

- Chinese Embassy in France
- French Ministry of Higher Education
- Ministry of Ecology
- Paris City Hall

Academic activities:

- Innovative Sustainable industrial processes development
- Industry development over the past centuries

400 study programs

40 engineering institutes

Get an insight into French know-how in science and technology and experience a taste of France!
